Summer Vacation Activity – Making Eco-Bricks

Grades: Nursery to Grade 10

Dear Parents and Students,

Greetings!

In our ongoing efforts to promote environmental awareness and responsibility, we are happy to announce a meaningful Summer Vacation Activity:

“Make Your Own Eco-Bricks!”

Objective:

To encourage students to re-use non-recyclable plastic waste like wrappers and packaging material and help reduce plastic pollution creatively.

What to Do ?

1. Take an empty plastic bottle (500 ml to 2 litres).
2. Collect clean and dry plastic wrappers, covers, and packaging waste.
3. Tightly stuff the plastics into the bottle using a stick or spoon until the bottle is firm and full.

Each student is encouraged to make as many Eco-Bricks as possible, based on their household collection during the vacation.

Important Note:

Each one of you is expected to make Eco-Bricks as per your own collection of plastic wrappers and bottles.

Students who submit the highest number of Eco-Bricks will be awarded by special prizes!

Submission:

Bring your Eco-Bricks to school after vacation.

Bricks will be used for our Eco-Wall or seating projects in school.

Let's work together for a cleaner Earth — one Eco-Brick at a time!

Warm regards

Principal
